5

6+

CURRENT RANGE

LONG

CLOSE

ATTACKER

SIDE A

SIDE B

SIDE A FLEET

NAME / COLOR:

ATTACK TECH	DEFENSE TECH	TACTICS	FLEET SIZE
PICKET Mark one eligible group: SC +2; DD +1; CA/CV/TR 0; BC/BB/DN -1; none -2.			
CLASS	UNSCREENED GROUPS	SCREENED	
A			
B			
C			
D			
E			
NON-COMBAT / CARGO		Automatically screened while a friendly combat-capable unit remains.	

ENGAGEMENT CONTROL

RANGE CONTROL – ROUND 2+

d10 + Picket + Tactics + smaller fleet (+1)

Higher total chooses Long or Close. A tie retains the current range. Round 1 begins at Long Range.

FIRING ORDER

LONG: MISSILES

A B C D E

CLOSE: BEAM A-E → MISSILE A-E

Higher Tactics fires first within a class; defender wins a remaining tie. Fire is not simultaneous.

ARMAMENT PACKAGE

Beam (B): Long -; Close full.
Missile (M): Long full; Close -1, after beams.
Mixed (X): Long missile -1; Close beam -1 or missile -2.
Fixed: Fighters/SY Beam; Bases Missile.

HIT NUMBER

Attack + Attack Tech + Fleet Bonus
- Defense - Defense Tech - Reactions

Roll d10 at or below. Natural 1 always hits. Hits equal to Hull Size destroy one ship.

SCREENING / FLEET SIZE

After range, count combat-capable ships, including Fighters, Bases, and Ship Yards. The larger fleet may screen eligible groups. At least 2:1 unscreened ships gives +1 Attack this round. Recalculate every round.

SIDE B FLEET

NAME / COLOR:

ATTACK TECH	DEFENSE TECH	TACTICS	FLEET SIZE
PICKET Mark one eligible group: SC +2; DD +1; CA/CV/TR 0; BC/BB/DN -1; none -2.			
CLASS	UNSCREENED GROUPS	SCREENED	
A			
B			
C			
D			
E			
NON-COMBAT / CARGO		Automatically screened while a friendly combat-capable unit remains.	

COMBAT ROUND

1. Set Range. Round 1 is Long; roll Range Control thereafter.

2. Screen. Move chosen groups between the Unscreened and Screened columns; determine the 2:1 Fleet Size Bonus.

3. Declare Reactions. Point Defense and sand are chosen before fire.

4. Fire. Follow the range track and printed classes. Each ship fires once.

5. Land. Attacker announces first. Resolve ground combat after space combat.

6. Continue. If both sides remain, begin another round and recalculate.

COMBAT OPTIONS

Point Defense. Unscreened Beam/Mixed SC or DD escorts one group and forfeits fire: +1 Defense vs missiles (+2 at PD 2+). At PD 3 it may fire at -1.

Disperse Sand. Non-Fighter combat ship forfeits fire, Close Assault, and PD: +1 Defense vs beams this round.

High-Intensity Missile Fire. Missile attack gains +1 Attack; mark that ship Missile Depleted for this Combat Phase.

Close Assault. At Close Range an SC, DD, or Fighter risks immediate defensive beam fire; if it survives, its beam attack gains +1.

LANDING / RETREAT / END

Landing. Space Marines may land after round 1. Any carried Ground Units may land after round 2 and later.

Retreat. From round 2, a group may retreat instead of firing at its printed class. Move to one legal adjacent system. Bases, Ship Yards, Fleet Trains, and other non-combat units cannot retreat.

Battle End. Combat ends when only one side has combat-capable units in the system. Destroy enemy non-combat units left without an escort. Remove temporary combat markers at the end of the Combat Phase.
